

# European Lager

*T*his Munich style “Helles” is a true “Session Beer”, meaning a beer you can adequately quaff and that tends to stick with you for the rest of the evening.

Golden coloured, with a slightly apparent malty honey-like sweetness and medium body. Crisp bitterness, refreshing and highly drinkable.

You could drink this all day long! Actually, you think you might!

\* Remember: the point of a session beer is imbibing socially without getting loaded
